ABOUT ME & WORK EXPERIENCE

I am a front-end developer, looking for a company that is ready to hire me!

I have development experience web application (SPA) using React, Redux, TypeScript, OOP, MVC, AJAX, REST API, localStorage, Database, as well development of web-sites based on layouts, using HTML, CSS and JavaScript, with Flex and Grid technologies.

At the moment, I continue to learn/practice the React library and am interested backend programming.

Examples of my development can be found at the link in my [Portfolio](#).
